-

PROFESSIONAL EXPERIENCE

IT Network and Desktop Support Technician

Steve Tshwete Local Municipality *September*

2020 – Present

- Provide senior-level support and operational management for ICT applications, systems, and infrastructure within a municipal environment serving over 500 end users.
- Support and administer enterprise applications in line with ICT governance frameworks, SDLC processes, and municipal policies.
- Mentored and managed interns over a 12-month period yearly, providing structured training, constructive feedback, and career guidance, resulting in their successful completion of the internship program.
- Perform incident, problem, and change management, ensuring service continuity and compliance with agreed service levels.
- Monitor and maintain network availability, server performance, endpoints, and production interfaces to ensure reliability and optimal performance.
- Design, support, and maintain LAN/WAN infrastructure, including troubleshooting of switches, routers, and connectivity faults.
- Administer Microsoft 365 and Active Directory, including user provisioning, access control, role management, and security compliance.
- Coordinate and engage ICT vendors and service providers, monitor performance against contractual obligations, and escalate issues where necessary.
- Prepare and maintain technical documentation, system configurations, incident reports, and operational procedures.

- Support capacity planning and infrastructure optimization initiatives to improve system performance and cost efficiency.

Smart City & Digital Transformation Projects

- Actively participated in the planning, implementation, and operational management of Smart City initiatives within the municipality.
 - Supported the deployment and integration of smart systems and digital platforms aimed at improving service delivery, data-driven decision-making and operational efficiency.
 - Collaborated with internal stakeholders, external vendors, and project teams to ensure successful implementation, testing, and handover of Smart City solutions.
 - Assisted with ongoing system monitoring, support, and optimization of Smart City technologies following successful implementation.
 - Contributed to the development of process improvements, system documentation, and user support mechanisms for Smart City solutions.
-

Intern IT Technician

Ngkwete IT Solutions

September 2019 – March 2020

- Assisted with installation, configuration, and support of network infrastructure, including switches and routers.
 - Supported operating system and application deployments in live client environments.
 - Conducted troubleshooting of network, hardware, and software issues, escalating complex matters where required.
 - Assisted with system backups, infrastructure maintenance, and disaster recovery activities.
-

EDUCATION

- **Advanced Diploma in Computer Science (NQF Level 7)** – Tshwane University of Technology (2025)
 - **National Diploma in Information Technology: Software Development (NQF Level 6)** – Tshwane University of Technology (2019)
 - **NSC (NQF Level 4)** – Eastdene Combined School (2015)
-

CERTIFICATIONS

- Customer Service Level 1
- Cobit 2019 foundation

ADDITIONAL INFORMATION

- 30-day notice period
- Willing to relocate
- Strong interest in ICT system analyst, Network and Desktop support, governance, enterprise applications, advisor and digital transformation and database management.
